SUMMARY INFORMATION ABOUT THE FUND

Investment Objective

Reynolds Blue Chip Growth Fund seeks long-term capital appreciation.

Fees and Expenses of the Fund

The table below describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

SHAREHOLDER FEES

(fees paid directly from your investment)

Maximum Sales Charge (Load)	
Imposed on Purchases	None
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Distributions	None
Redemption Fee (transfer agent charge of \$15 for each wire redemption)	None
Exchange Fee	None

ANNUAL FUND OPERATING EXPENSES

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	1.00%
Distribution and/or Service (12b-1) Fees	0.11%
Other Expenses	0.44%
Total Annual Fund Operating Expenses	<u>1.55%</u>

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, that dividends and distributions are reinvested, and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$158	\$490	\$845	\$1,845

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 55% of the average value of its portfolio.

Principal Investment Strategies

The Fund under normal market conditions invests 80% of its net assets in the common stocks of "growth" companies that, in the view of the Fund's investment adviser, are well-established in their industries and have a minimum market capitalization of at least \$1 billion (these companies are commonly referred to as "blue chip" companies). The Fund invests in securities of both domestic and foreign "blue chip" growth companies, with the Fund's investments in foreign companies generally being effected through American Depositary Receipts or "ADRs," which are dollar-denominated securities of foreign issuers traded in the U.S. The Fund may invest in ADRs through both sponsored and unsponsored arrangements.

The Fund's investment adviser bases investment decisions on company-specific factors (bottom-up investment approach) and general economic conditions (top-down approach). When purchasing "blue chip" growth companies for the Fund, the Fund's investment adviser looks for companies that have some or all of the following attributes:

- a presence in expanding industries
- a superior and pragmatic growth strategy
- proprietary products, processes or services
- a potential for above-average unit and earnings growth

In pursuing its investment objective, the Fund has the discretion to purchase some securities that do not meet its normal investment criteria. In particular, the Fund may invest in companies that are not now "blue chip" companies, but which the Fund's investment adviser believes have the potential to become "blue chip" companies. These include:

- leading companies in smaller industries
- lesser known companies moving from a lower to a higher market share position within their industry group

The Fund's investment adviser will generally sell a portfolio security when the investment adviser believes:

- the security has achieved its value potential
- changing fundamentals signal a deteriorating value potential
- other securities have a better performance potential

While this sell discipline may result in higher annual portfolio turnover rates for the Fund, it also causes the Fund to keep seeking better alternatives.

Principal Risks

Investors in the Fund may lose money. There are risks associated with investments in the types of securities in which the Fund invests. These risks include:

- **Market Risk** – The prices of the stocks in which the Fund invests may decline for a number of reasons. These reasons include factors that are specific to one or more stocks in which the Fund invests as well as factors that affect the equity securities markets gen-

erally. The price declines may be steep, sudden and/or prolonged.

- **Growth Investing Risk** – The investment adviser may be wrong in its assessment of a company's potential for growth and the growth stocks the Fund holds may not grow as the investment adviser anticipates. Finally, there are periods when investing in growth stocks falls out of favor with investors and these stocks may underperform.
- **Technology Companies Risk** – Technology companies may be subject to greater business risks and may be more sensitive to changes in economic conditions than other companies. The earnings of technology companies may fluctuate more than those of other companies because of short product cycles (technological obsolescence) and competitive pricing. Finally, there are periods when investing in stocks of technology companies falls out of favor with investors and these stocks may underperform.
- **Medium Capitalization Companies Risk** – There is a risk that the securities of medium capitalization companies may have limited liquidity and greater price volatility than securities of large capitalization companies, which can negatively affect the Fund's ability to sell these securities at quoted market prices.
- **Smaller Capitalization Companies Risk** – Small capitalization companies typically have relatively lower revenues, limited product lines and lack of management depth, and may have a smaller share of the market for their products or services, than large and medium capitalization companies. There is a risk that the securities of small capitalization companies may have limited liquidity and greater price volatility than securities of large and medium capitalization companies, which can negatively affect the Fund's ability to sell these securities at quoted market prices. Finally, there are periods when investing in small capitalization company stocks falls out of favor with investors and these stocks may underperform.
- **Foreign Securities Risk** – There are specific risks associated with investing in the securities of foreign

companies not typically associated with investing in domestic companies. Risks include fluctuations in the exchange rates of foreign currencies that may affect the U.S. Dollar value of a security, and the possibility of substantial price volatility as a result of political and economic instability in the foreign country.

- **Portfolio Turnover Risk** – High portfolio turnover necessarily results in greater transaction costs, such as brokerage commissions, which the Fund must pay and short term capital gains (or losses) to investors. Greater transaction costs may reduce Fund performance. Distributions to shareholders of short-term capital gains are taxed as ordinary income under current federal income tax laws.
- **Frequent Trading Risk** – Frequent purchases and redemptions of shares of the Fund by a shareholder may harm other shareholders by interfering with the efficient management of the Fund’s portfolio, increasing brokerage and administrative costs, and potentially diluting the value of their shares. However, the Fund’s Board of Directors has determined not to adopt policies and procedures that discourage frequent purchases and redemptions of shares of the Fund because the Fund has not experienced frequent purchases and redemptions of shares of the Fund that have been disruptive to the Fund. The Fund’s Board of Directors may reconsider its decision not to adopt policies and procedures if it determines that there is unusual trading in shares of the Fund.

Because of these risks the Fund is a suitable investment only for those investors who have long-term investment goals and who are comfortable with an investment that will fluctuate in value.

Performance

The following performance information indicates some of the risks of investing in the Fund. The bar chart shows changes in the Fund’s performance from year to year. The table shows how the Fund’s average annual returns for 1, 5 and 10 years compare to the performance of the S&P 500® Index. For additional information on this index, please see “Index Description” in the Prospectus. Please keep in mind that the Fund’s past performance, be-

fore and after taxes, does not necessarily indicate how it will perform in the future. Updated performance information is available on the Fund’s website at www.reynoldsfunds.com or by calling the Fund toll-free at 1-800-773-9665.

**REYNOLDS BLUE CHIP GROWTH FUND
(Total return per calendar year)**

During the ten year period shown on the bar chart, the Fund’s highest total return for a quarter was 21.89% (quarter ended September 30, 2009) and the lowest total return for a quarter was (23.43%) (quarter ended June 30, 2002).

After-tax returns are calculated using the historical highest individual federal margin income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as individual retirement accounts.

The Fund’s return after taxes on distributions and sale of Fund shares may be higher than its returns before taxes and after taxes on distributions because it may include a tax benefit resulting from the capital losses that would have been incurred.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your adviser or visit your financial intermediary’s website for more information.

**INVESTMENT OBJECTIVE, NON-PRINCIPAL
INVESTMENT STRATEGIES AND RISKS
AND PORTFOLIO HOLDINGS**

Investment Objective

The Fund seeks long-term capital appreciation. The Fund may change its investment objective without obtaining shareholder approval. Please remember that an investment objective is not a guarantee. An investment in the Fund might not appreciate and investors could lose money.

Non-Principal Investment Strategies and Risks

The Fund mainly invests in common stocks of “blue chip” growth companies. However, the Fund may, in response to adverse market, economic, political or other conditions, take temporary defensive positions. This means the Fund will invest some or all of its assets in money market instruments (such as U.S. Treasury Bills, commercial paper or repurchase agreements). The Fund will not be able to achieve its investment objective of capital appreciation to the extent that it invests in money market instruments since these securities earn interest but do not appreciate in value. When interest rates are low, the income earned on the Fund’s money market investments may be lower than the Fund’s expenses resulting in nega-

tive returns. When the Fund is not taking a temporary defensive position, it still will hold some cash and money market instruments so that it can pay its expenses, satisfy redemption requests or take advantage of investment opportunities.

When making investment decisions, the Fund's investment adviser may consider the tax consequences of the Fund's portfolio transactions. This may result in the Fund delaying or accelerating a trade in a particular stock, when it would otherwise proceed with the trade.

Portfolio Holdings

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information, which is incorporated by reference into this Prospectus.

MANAGEMENT OF THE FUND

Investment Adviser

Reynolds Capital Management, LLC (the "Adviser") is the investment adviser to the Fund. The Adviser's address is 3565 South Las Vegas Blvd., #403, Las Vegas, NV 89109. The Adviser has been an SEC-registered investment adviser since 1985, and, in addition to providing investment advisory services to the Fund since 1988, also provides investment advisory services to individuals, high net worth individuals, and pension and profit sharing plans.

As the investment adviser to the Fund, the Adviser manages the investment portfolio of the Fund. The Adviser makes the decisions as to which securities to buy and which securities to sell. During the last fiscal year, the Fund paid the Adviser an annual investment advisory fee equal to 1.00% of the average net assets.

A discussion regarding the basis for the Board of Directors approving the investment advisory agreement for the Fund with the Adviser is available in the Fund's semi-annual report to shareholders for the most recent period ended March 31.

Portfolio Manager

Frederick L. Reynolds is primarily responsible for the day-to-day management of the portfolio of the Fund and

has been the portfolio manager of the Fund since its inception in 1988. Mr. Reynolds is the sole owner of the Adviser and has been conducting an investment advisory business as Reynolds Capital Management since 1985.

The Statement of Additional Information for the Fund, which is incorporated by reference into this Prospectus, provides additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager and the portfolio manager's ownership of securities in the Fund.

THE FUND'S SHARE PRICE

The price at which investors purchase shares of the Fund and at which shareholders redeem shares of the Fund is called its net asset value. The Fund normally calculates its net asset value as of the close of regular trading on the New York Stock Exchange (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange is open for trading. The New York Stock Exchange is closed on national holidays and weekends. The Fund calculates its net asset value based on the market prices of the securities (other than money market instruments) it holds. The Fund values most money market instruments it holds, which mature in 60 days or less, at their amortized cost. The Fund will process purchase orders and redemption orders that it receives in good order prior to the close of regular trading on a day that the New York Stock Exchange is open at the net asset value determined **later that day** and it will process purchase orders and redemption orders that it receives in good order **after** the close of regular trading at the net asset value calculated on the next day the New York Stock Exchange is open. A purchase order or redemption request is in "good order" when the Fund or your servicing agent receives properly completed and signed documents. If an investor sends a purchase order or redemption request to the Fund's corporate address, instead of to its transfer agent, the Fund will forward it to the transfer agent and the effective date of the purchase order or redemption request will be delayed until the purchase order or redemption request is received by the transfer agent.

If market quotations are not readily available, the Fund will value securities at their fair value pursuant to proce-

dures established by and under the supervision of the Board of Directors. The fair value of a security is the amount which the Fund might reasonably expect to receive upon a current sale. The fair value of a security may differ from the last quoted price and the Fund may not be able to sell a security at the fair value. Market quotations may not be available, for example, if trading in particular securities was halted during the day and not resumed prior to the close of trading on the New York Stock Exchange.

Purchasing Shares from Broker-dealers, Financial Institutions and Others

Some broker-dealers may sell shares of the Fund. These broker-dealers may charge investors a fee either at the time of purchase or redemption. The fee, if charged, is retained by the broker-dealer and not remitted to the Fund or the Adviser. Some broker-dealers may purchase and redeem shares on a three-day settlement basis.

The Fund may enter into agreements with broker-dealers, financial institutions or other service providers (“Servicing Agents”) that may include the Fund as an investment alternative in the programs they offer or administer. Servicing Agents may:

- Become shareholders of record of the Fund. This means all requests to purchase additional shares and all redemption requests must be sent through the Servicing Agent. This also means that purchases made through Servicing Agents are not subject to the Fund's minimum purchase requirements.
- Use procedures and impose restrictions that may be in addition to, or different from, those applicable to investors purchasing shares directly from the Fund.

- Charge fees to their customers for the services they provide them. Also, the Fund and/or the Adviser may pay fees to Servicing Agents to compensate them for the services they provide their customers.
- Be allowed to purchase shares by telephone with payment to follow the next day. If the telephone purchase is made prior to the close of regular trading on the New York Stock Exchange, it will receive same day pricing.
- Be authorized to receive purchase orders on behalf of the Fund (and designate other Servicing Agents to accept purchase orders on the Fund's behalf). If the Fund has entered into an agreement with a Servicing Agent pursuant to which the Servicing Agent (or its designee) has been authorized to accept purchase orders on the Fund's behalf, then all purchase orders received in good order by the Servicing Agent (or its designee) before 4:00 p.m. Eastern Time will receive that day's net asset value, and all purchase orders received in good order by the Servicing Agent (or its designee) after 4:00 p.m. Eastern Time will receive the next day's net asset value.

If you decide to purchase shares through Servicing Agents, please carefully review the program materials provided to you by the Servicing Agent because particular Servicing Agents may adopt policies or procedures that are separate from those described in this Prospectus. Investors purchasing or redeeming through a Servicing Agent need to check with the Servicing Agent to determine whether the Servicing Agent has entered into an agreement with the Fund. When you purchase shares of the Fund through a Servicing Agent, it is the responsibility of the Servicing Agent to place your order with the Fund on a timely basis. If the Servicing Agent does not place the order on a timely basis, or if it does not pay the purchase price to the Fund within the period specified in its agreement with the Fund, it may be held liable for any resulting fees or losses.

Other Information about Purchasing Shares of the Fund

The Fund may reject any Purchase Application for any reason. The Fund will not accept purchase orders made by telephone unless a shareholder has elected the tele-

phone purchase option or the purchase order is from a Servicing Agent which has an agreement with the Fund. Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside of the United States, even if they are U.S. citizens or lawful permanent residents, except to investors with U.S. military APO or FPO addresses.

The Fund will not issue certificates evidencing shares purchased. Instead, the Fund will send investors a written confirmation for all purchases of shares.

- U.S. Bancorp Fund Services, LLC receives your written request in good order with all required information and documents as necessary. Shareholders

should contact U.S. Bancorp Fund Services, LLC for further information concerning documentation required for redemption of Fund shares for certain account types (for example, corporate or trust accounts).

- If the Fund has entered into an agreement with a Servicing Agent pursuant to which the Servicing Agent (or its designee) has been authorized to accept redemption requests on behalf of the Fund, then all redemption requests received in good order by the Servicing Agent (or its designee) before 4:00 p.m. Eastern Time will receive that day's net asset value, and all redemption requests received in good order by the Servicing Agent (or its designee) after 4:00 p.m. Eastern Time will receive the next day's net asset value.

Payment of Redemption Proceeds

- For those shareholders who redeem shares by mail, U.S. Bancorp Fund Services, LLC will normally mail a check in the amount of the redemption proceeds no later than the seventh day after it receives the redemption request in proper form with all required information.
- For those shareholders who redeem by telephone, U.S. Bancorp Fund Services, LLC will normally either mail a check in the amount of the redemption proceeds no later than the seventh day after it receives the redemption request, or transfer the redemption proceeds to your designated bank account if you have elected to receive redemption proceeds by either Electronic Funds Transfer or wire. An Electronic Funds Transfer generally takes 2 to 3 business days to reach the shareholder's account whereas U.S. Bancorp Fund Services, LLC generally wires redemption proceeds on the business day following the calculation of the redemption price. However, the Fund may direct U.S. Bancorp Fund Services, LLC to pay the proceeds of a telephone redemption on a date no later than the seventh day after the redemption request.
- For those shareholders who redeem shares through Servicing Agents, the Servicing Agent will transmit the redemption proceeds in accordance with its redemption procedures.

Other Redemption Considerations

When redeeming shares of the Fund, shareholders should consider the following:

- The redemption may result in a taxable gain.
- Shareholders who redeem shares held in an IRA must indicate on their redemption request whether or not to withhold federal income taxes. If not, these redemptions, as well as redemptions of other retirement plans not involving a direct rollover to an eligible plan, will be subject to federal income tax withholding.
- The Fund may delay the payment of redemption proceeds for up to seven days in all cases. In addition, the Fund can suspend redemptions and/or postpone payments of redemption proceeds beyond seven days at times when the New York Stock Exchange is closed or during emergency circumstances, as determined by the Securities and Exchange Commission.
- If you purchased shares by check, the Fund may delay the payment of redemption proceeds until it is reasonably satisfied the check has cleared (which may take up to 15 days from the date of purchase).
- U.S. Bancorp Fund Services, LLC will send the proceeds of telephone redemptions only to a predetermined bank account or to the address of record. Payment to any other address or account will require a written redemption request with signatures guaranteed.
- The Fund reserves the right to refuse a telephone redemption request if it believes it is advisable to do so. The Fund and U.S. Bancorp Fund Services, LLC may modify or terminate their procedures for telephone redemptions at any time. Neither the Fund nor U.S. Bancorp Fund Services, LLC will be liable for following instructions for telephone redemption transactions that they reasonably believe to be genuine, provided they use reasonable procedures to confirm the genuineness of the telephone instructions. They may be liable for unauthorized transactions if they fail to follow such procedures. These procedures include requiring some form of personal identification prior to acting upon the telephone instructions and recording all telephone calls.

During periods of substantial economic or market change, you may find telephone redemptions difficult to implement and shareholders may encounter higher than usual call waits. Telephone trades must be received by or prior to market close. Please allow sufficient time to place your telephone transaction. If a shareholder cannot contact U.S. Bancorp Fund Services, LLC by telephone, he or she should make a redemption request in writing in the manner described earlier.

- U.S. Bancorp Fund Services, LLC currently charges a fee of \$15 when transferring redemption proceeds to your designated bank account by wire but does not charge a fee when transferring redemption proceeds by Electronic Funds Transfer.
- If your account balance falls below \$500 because you redeem shares, you will be given 60 days to make additional investments so that your account balance is \$500 or more. If you do not, the Fund may close your account and mail the redemption proceeds to you.
- The Fund may pay redemption requests “in kind.” This means that the Fund may pay redemption requests entirely or partially with liquid securities rather than cash. Shareholders who receive a redemption “in kind” may incur costs to dispose of such securities.

EXCHANGING SHARES

Shares of the Fund may be exchanged for the First American Treasury Obligations Fund at the relative net asset value. An affiliate of U.S. Bancorp Fund Services, LLC advises First American Treasury Obligations Fund. Neither U.S. Bancorp Fund Services, LLC nor First American Treasury Obligations Fund is affiliated with the Fund or the Adviser.

You may have a taxable gain or loss as a result of an exchange because the Internal Revenue Code treats an exchange as a sale of shares. The registration of both the account from which the exchange is being made and the account to which the exchange is being made must be identical.

How to Exchange Shares

1. Read this Prospectus and the current prospectus for the First American Treasury Obligations Fund carefully.
2. Submit an application for the First American Treasury Obligations Fund so that an account can be established.
3. Determine the number of shares you want to exchange keeping in mind that the minimum initial investment in the First American Treasury Obligations Fund is \$2,500. Subsequent exchanges may be made in amounts of \$100 or more.
4. Call U.S. Bancorp Fund Services, LLC at 1-800-773-9665. You may also make an exchange by writing to Reynolds Blue Chip Growth Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. If your account in the First American Treasury Obligations Fund is new, your letter should be accompanied by a completed application.

This exchange privilege does not constitute an offering or recommendation on the part of the Fund or the Adviser of an investment in the First American Treasury Obligations Fund.

MARKET TIMING PROCEDURES

Frequent purchases and redemptions of shares of the Fund by a shareholder may harm other shareholders by interfering with the efficient management of the Fund's portfolio, increasing brokerage and administrative costs, and potentially diluting the value of their shares. Notwithstanding the foregoing, the Fund's Board of Directors has determined not to adopt policies and procedures that discourage frequent purchases and redemptions of shares of the Fund because the Fund has not experienced frequent purchases and redemptions of shares that were disruptive to the Fund.

The officers of the Fund receive reports on a regular basis as to purchases and redemptions of shares of the Fund and review these reports to determine if there is any unusual trading in shares of the Fund. The officers of the Fund will report to the Board of Directors any such unusual trading in shares of the Fund that is disruptive to the Fund. In such event, the Fund's Board of Directors may

reconsider its decision not to adopt market timing policies and procedures.

DISTRIBUTION OF FUND SHARES

Shares of the Fund are offered on a continuous basis.

The Fund has adopted a distribution and service plan pursuant to Rule 12b-1 under the Investment Company Act. This Plan allows the Fund to use up to 0.25% of its average daily net assets to pay sales, distribution and servicing fees for the sale of its shares and for services provided to investors. Because these fees are paid out of the Fund's assets, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

DISTRIBUTIONS AND TAXES

The Fund distributes substantially all of its net investment income and substantially all of its capital gains annually. You have four distribution options:

- **All Reinvestment Option** – Both dividend and capital gains distributions will be reinvested in additional Fund shares.
- **Partial Reinvestment Option** – Dividends will be paid in cash and capital gains distributions will be reinvested in additional Fund shares.
- **Partial Reinvestment Option** – Dividends will be reinvested in additional Fund shares and capital gains distributions will be paid in cash.
- **All Cash Option** – Both dividend and capital gains distributions will be paid in cash.

You may make this election on the Purchase Application. You may change your election by writing to U.S. Bancorp Fund Services, LLC or by calling 1-800-773-9665.

If you elect to receive distributions paid in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account. The reinvestment will be at the Fund's current net asset value and all subsequent distributions will also be reinvested.

The Fund's distributions, whether received in cash or additional shares of the Fund, may be subject to federal and state income tax. These distributions may be taxed as ordinary income, dividend income and capital gains (which may be taxed at different rates depending on the length of time the Fund holds the assets generating the capital gains). The Fund expects that its distributions will consist primarily of long-term capital gains.

As of January 1, 2012, federal law requires that mutual fund companies report their shareholders' cost basis, gain/loss, and holding period to the Internal Revenue Service on the shareholders' Consolidated Form 1099s when "covered" shares of the mutual funds are sold. Covered shares are any fund and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method it will use to report the sale of covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares.

The cost basis method a shareholder elects may not be changed with respect to a redemption of shares after the settlement date of the redemption. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how the new cost basis reporting rules apply to them.

For those securities defined as "covered" under current IRS cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered."

This summary is not intended to be and should not be construed to be legal or tax advice to any current holder of the shares of the Fund. Shareholders should consult

their own tax advisors to determine the tax consequences of owning Fund shares.
